

Social Investment and Social Network: Analysis of the Collaboration between Third Sector and Private Sector in CIIF-funded Projects

Chan Kam Tong, Kitty Ng, Jade Lai
Unit for Third Sector Studies,
Hong Kong Polytechnic University

Objectives

1. to explore the nature and modes of cooperation between Third Sector and Private Sector;
2. to identify attributes of effectiveness of involving private sector for developing social capital;
3. to identify major domains of 'partnership capacity';
4. to advise government for policies on enhancing tripartite partnership among government, third sector and private sector for social capital development.

Conceptual Framework

Principles for selecting projects

1. tripartite partnership: involving both third sector and private sector
2. batch: at least 1 project from each batch of project
3. duration : covers projects with both longer and shorter period
4. clientele : a wide variety of clientele
5. location: both territory-wide and a particular district

A total of six projects will be involved in the evaluation.

Methodologies

1. Participant observation
2. Focus group discussion
3. Key Informants interviews
4. Self-administered questionnaire (tentative)
