1. Project Highlights

(i) Objectives

- ◆ Building a community with care and concern by organising community care and mutual help network.
- ◆ Raise resident's capacity and community cohesion
- ◆ To identify needy families in community and strengthening their community helping network.

(ii) Strategies

The project will be implementing by reaching-out strategy to ensure its penetration among working targets. It will organise groups / platform in locality to facilitate interaction among residents as well as promoting community participation.

(iii) Expected Outcomes and Performance Indicators

- ◆ 500 residents change their role as "service recipient" to "change agent or catalyst of change".
- ◆ 400 residents involve in "block helper" (樓長).
- ◆ 50 residents joining the "community service team"(社區鄰舍關顧服務隊)

2. Brief Description of Programmes

2.1 "Block helper"

- ◆ To visit needy families and as their support network.

2.2 Training courses for residents

- ◆ To raise the capacity as well as confidence of participants
- ◆ Using "Kai-fong" as "teachers" of these courses.

2.3 "Community care and service team"

- ◆ Organise participants of training courses to be volunteers and applying what they learnt to serve the community.

3. Unique Feature and Areas of Innovation

- ◆ Direct as means and building community network as long term goal.
- ◆ Emphasis raising the capacity of residents and change their role as "service recipient" to "change agent or catalyst of change"
