

**New Estate with New Relationship – Cheung Lung Wai Community
Neighbourhood Network Project
Hong Kong Evangelical Church Yan Lam Community Service Centre**

Project Brief

Cheung Lung Wai Estate, a new public housing estate, will soon be completed in Sheung Shui with new intakes in 2015. This project which focuses on social capital as the core concept aims to forge a mutual help and trust network of solidarity and reciprocity among new residents at the very beginning so as to transform them from service recipients to group participants in the community in response to local needs as a whole. Stakeholders from various sectors will also be invited to forge a cross-sectoral collaborative network to help develop social capital in support of the community.
