

Oasis-Happy Family Home Sweet Home - Pok Oi Hospital Chan Ping Memorial Neighbourhood Elderly Centre

Project Summary

To cultivate a "Happy Valley" in Tin Shui Wai and to create an environment to facilitate the development of social capital, the project is going to be developed on the House Captain model and uses "body-spiritual nurturing" as a point of entry. The main idea is to help transforming participants of the project into helping hands of the community, leading to the ultimate goal of "Spirit sustains families; families sustain community". Also by mobilizing local residents and stakeholders to participate in the project, it is believed that the capability of the community to deal with adverse situations will be enhanced. The neighbourhood's bonding will also be strengthened.
